*2. Choose an Appropriate Space: Use in an open, flat area. Ensure there are no obstacles, fragile items, or other people nearby.*

*3. Inspect the Equipment: Before each use, check the ball, elastic cord, and headband for wear and ensure all connections are secure. If any damage or looseness is found, stop using it immediately.*

*4. Mind Your Punching Form: Keep your wrists straight when punching. Avoid overexertion or incorrect form to prevent sprains.*

*5. Progress Gradually: Beginners should start slow and for short durations, gradually increasing speed and session length as they adapt.*

*6. Keep Away from Children: This is not a toy. Keep it out of reach of infants and young children to prevent accidental ingestion of small parts.*

*7. Be Aware of Your Environment: Ensure the floor is dry and non-slip.*

*8. Stop if Discomfort Occurs: If you feel any pain or discomfort during use, stop immediately and rest.*

*9. Special Populations: Users with pre-existing neck, shoulder, wrist, or eye injuries should consult a doctor before use.*
